05/2022 -> 06/2022 --> Big Regression testing
620 scenario are tested both manually and automatically together

Big / major regression -> testing all the scenarios before transferring/deploying the app from QA env to STg env.

minor / small regression -> everyday , once a week, once a month --> automatically run

Selenium Grid -> 3000 scenarios: take 15 minutes run

780 scenario - takes 5 hours to run
