

NextbaseCRM *User Stories & AC*

INVEST Qualities of Stories

- Independent
- Negotiable
- Valuable
- Estimable
- Small
- Testable

Assignment to do list:

1. *Each person choose at least 1 user story*
2. *Each person creates test cases on Jira to his/her story*
3. *Each person creates 1 Test Execution to perform UI manual testing*
4. *If anyone found a bug from the app, create bug tickets.*

Note: **Every single team member** work on the assignment.

Instructor creates sprint 1 to each group on jira.

Jira short videos with several test cases , test execution, bug is all ready on Canvas.

Instructor provided scenarios in the next slides.

Due date: 08/20, Friday

Story 1:

As a user, I should be able to **login** to the NextBaseCRM.

Acceptance Criteria:

1. Login page title should be "Authorization" .
2. In the center of the page, there should be a popup header "Authorization".
3. "Login" keyword should be displayed in the first input box.
4. "Password" keyword should be displayed in the second input box.
5. Checkbox label should be displayed left side of "Remember me on this computer".
6. "Log In" button should be displayed underneath the checkbox.
7. "FORGOT YOUR PASSWORD?" link should be displayed o the right side of login button.
8. "Incorrect username or password" should be displayed under "Authorization" header when user enters wrong username or password

scenarios :

1. Users (HR, marketing, Helpdesk) login successfully
2. Users see "Incorrect username or password" for invalid login attempt
